Using the brand

- Lead with the staffing problem: no CAD trained adult required. Never lead with how much content there is.
- Photos prove, screenshots explain. Crop screenshots to the part that matters.
- No faces without a signed media release. No stock photos of people.
- Short sentences. Second person. Concrete nouns. No "innovative" or "cutting edge."
- Show real student prints in their real filament colors. Never recolor a print to match the brand.
- Keep clear space around the logo equal to the height of the top star.
